REMOTE-LANDLORD MYTHS

Four things remote *owners put up with.*

You don't have to — even from 13 time zones away.

SWIPE · 4 MYTHS

KPMRentals · Memphis-first property management

MYTH 1 / 4

~~Owning from abroad means being on-call at 2 a.m.~~

FACT

Decisions wait for your morning.

Non-urgent decisions are batched into one digest in your local time. Urgent ones are triaged and routed without waiting for you.

MYTH 2 / 4

~~A repair quote is whatever the vendor says.~~

FACT

Every ticket has a cost band.

Repairs arrive with a P50–P80 band benchmarked against similar Memphis jobs, and outlier quotes are flagged.

MYTH 3 / 4

~~You find out about a leak when the ceiling falls.~~

FACT

Sensors open the ticket.

Leak, HVAC and smoke sensors raise alerts — a moisture spike can open a plumbing ticket on its own.

MYTH 4 / 4

~~Handing out keys means losing track of who got in.~~

FACT

Every pass is time-boxed.

Smart-lock guest passes for vendors and showings expire on their own, and every issue and revoke is on the access log.
