

MONEY-COMMUNITY MYTHS

Four reasons people don't ask online.

And how DesiSquare is built so you can.

SWIPE · 4 MYTHS

Educational community · Not investment advice

MYTH 1 / 4

~~To get good answers, you have to share your portfolio.~~

FACT

Percent, never dollars.

Public pages show allocation in percent only. The dollar view is visible to its owner and nobody else.

MYTH 2 / 4

~~The loudest, richest account is the most trusted.~~

FACT

Helpfulness earns standing.

Karma comes from Actionable, Insightful and Helpful reactions to your answers. Portfolio value and returns can never affect it.

~~Reporting a post shames the author in public.~~

FACT

Flags are private.

Four reasons, one moderator queue — and no public flag counts for anyone to pile on to.

MYTH 4 / 4

~~Joining means your phone number ends up in a group.~~

FACT

**Consent first.
Numbers never
shown.**

WhatsApp mirroring and notifications are opt-in, and phone numbers never appear anywhere on DesiSquare.

Read before you decide.

Pseudonymous, percent-only, educational. Ask your first question.
