ORDERING FROM HOME, FROM ABROAD

Four things you *probably believe.*

About ordering South Indian sweets and pantry staples in the US.

SWIPE · 4 MYTHS

Handmade in small batches in Chennai · shipped across the US

MYTH 1 / 4

~~You can't know if it'll arrive before the festival.~~

FACT

Every festival has an order-by date.

Swaad adds each item's kitchen lead time to its delivery window and shows the last day to order.

MYTH 2 / 4

~~Online food reviews are mostly made up.~~

FACT

Only delivered orders can review.

A review needs a purchase that actually arrived — so 'verified' is true of every single one.

MYTH 3 / 4

~~Sold out means checking back every day.~~

FACT

One alert, then done.

Ask to be told when an item is back. No account needed — one email the moment it really restocks.

MYTH 4 / 4

~~Bulk buying is only for businesses.~~

FACT

Six jars is enough.

Buy 6+ of one item for 5% off that line, 12+ for 10%, 24+ for 15% — applied automatically at checkout.
