

EOT-PCS

EXPORT ORDER-TO-PAYMENT CONTROL SYSTEM

Seven controls between a PI and a payment.

A playbook for export operations and finance teams moving off spreadsheets and inboxes.

Pull it from Oracle. Don't type it.

Invoice values and lines are read-only in EOT-PCS — the ERP stays the system of record.

BLOCKING NOW

No critical findings open — high/medium findings can be resolved or waived from the findings queue.

REMARKS

The rules decide which documents.

By customer, country, Incoterms, product group, payment terms and transport mode.

eot-pcs

Q Search shipments, customers...

Alerts

RULES

New rule

Document Type	Customer	Country	Incoterms	Payment Terms	Product	Transport Mode	Requirement	
Bill of Lading	Any	Any	Any	Any	Any	sea	Mandatory	Edit
Certificate of Origin	Demo Customer One	Any	Any	Any	Any	Any	Optional	Edit
Commercial Invoice	Any	Any	Any	Any	Any	Any	Mandatory	Edit
Packing List	Any	Any	Any	Any	Any	Any	Mandatory	Edit

Rules are keyed by customer / country / Incoterm / payment term / product / transport mode. The most specific match wins.

PREVIEW CHECKLIST

Pick sample conditions to see which configured rules would apply — the same evaluation Wave 2 will run for real shipments (US-012).
